

Jeff Majchrzak, RCC, BA, RT(R), CNMT
Vice President, Radiology Services

A nationally renowned radiology coding authority, Jeff has amassed an incredible breadth and depth of experience, both in the healthcare setting and in the field of consulting. His real-world experience includes work in the radiology and nuclear medicine departments of several public and private hospitals.

Jeff's service to MedLearn and its clients is equally impressive. In his consulting role, he conducts CPT coding assessments for both hospitals and physicians. Other areas of expertise include developing quality assurance programs; training radiology and cardiology staff in correct coding practices; and presenting seminars on topics related to radiology and cardiovascular coding, billing and compliance. During his tenure, Jeff has assisted literally hundreds of healthcare organizations. He is also intensely involved with MedLearn publications, as a technical editor, author and contributor.
