Association of Health Care Auditors and Educators

Chart Auditing Certification and Education! Make the Right Decision on Your Audits, Learn to Communicate Effectively Your Results

Intensive Chart Auditing Practicum!

Gain knowledge and learn with hands on experience from a team of nationally recognized auditors, coding and compliance educators. Dig into regulations and rules, as you've never seen before.

These original, one of a kind programs have been a collaborative effort developed by the Association of Health Care Auditors and Educators and are designed to provide critical elements needed for accurate medical record chart auditing and effective compliance.

Practicum's are now available for Facility, Professional, or Surgical Intensive Chart Auditing Training and are designed for the serious auditor. If you are new or a seasoned auditor, this program is for you. Your instructor team will guide you all the way!

2012 Intensive Chart Auditing Practicums

**Additional dates /locations may be added from time to time-*

Need On-Site or Tailored Training?

The AHCAE conducts many private, tailored and on-site training programs that may include your facility's documentation for examples in the training process if desired.

These training sessions are both cost effective and will limit travel expenses and staff time off. Not sure what you need? Not a problem, our staff will assist you without any obligation.
